~~~~~	✓

Home page

- has contact info / missing status

"Stuff"	ID Card #	Days

✱ Schedule page

✱ Note: status is only determined if backpack has crossed threshold around leaving time

home | Schedule | "Backpack"

⊕ Add

"Stuff"	ID card#	Remove

"Backpack"

- where the ID cards are ~~connected~~ to items assigned
 - maybe integrate with schedule
- Be able to scan card into system
 - need feedback to Arduino, or something at least
